

SCIENTIFIC SYMPOSIUM AT UNISI

VIRTUAL EVENT

Antibiotics & Bacterial Resistance: Infinity War

The **Department of Biotechnology, Chemistry and Pharmacy** (*Dept. of Excellence 2018-2022*) of the **University of Siena** is pleased to announce the first edition of **ScienceS@Si – Scientific Symposium at Unisi**.

ScienceS@Si Summer Edition will be held on **July 16th, 2021** as a **FREE** and **VIRTUAL** event.

The Symposium will be focused on ***The Infinity War between Antibiotics and Bacterial Resistance*** with the aim at providing participants from both Academia and Industry with some of the *most recent advances* in the field of medicinal chemistry and biological sciences through a multidisciplinary approach.

In a single afternoon, four **Eminent Scientists** will present innovative strategies and research projects:

Prof. Chiara Mocenni – University of Siena

Prof. Jean-Denis Docquier – University of Siena,

Dr. Claudia Sala – MAD Lab, Fondazione Toscana Life Sciences TLS

Dr. Thomas H. Pillow – Genentech, USA

Submit Abstract and Poster
on your (anti)bacterial research project,
you could win ***the Best Poster Award!***
